2. When the project of supplying water to Robertsonpet and the Cooly Colonies was first thought of, the Board had no idea that the estimates for the same would mount up to the large sum that has now been arrived at. Originally the estimates were ₨ 14,370 & ₨ 14,500, respectively, and it was hoped that Government would supply the water free of cost. It having been however ruled that the actual costs of pumping and maintenance charges should be borne by the Board, they are prepared to do so in as far as Robertsonpet is concerned.

3. As for the Cooly Colonies, the original estimate of ₨ 14,500/- has quite recently been increased to ₨ 29,242 and the pumping charges are reported to come to ₨ 13,000/- a year, exclu

excluding ₨ 5,000/- for Robertsonpet, besides ₨ 1,000/- for maintenance charges. Such an initial outlay of well nigh thirty thousand rupees with a recurring large expenditure of ₨ 14,000/- a year, on behalf of the Cooly Colonies was never contemplated and the finances of the Board are unable to stand it. Under these circumstances, the idea of supplying water to the Cooly Colonies must, I regret have to say, be abandoned for the present--Vide Board's resolution on the subject enclosed for reference.

For Chief Engineer of Mysore A.T.

Letter no: 1229 dated the 6th April 1909, from the President, Sanitary Board, Kolar Gold Fields, to the Secretary to the Government of His Highness the Maharaja of Mysore, General and Revenue Departments.

Referring to Government Proceedings no: 8979-81/L.B.87-08-10 dated the 16th March 190, directing that the actual cost incurred by Government on account of pumping and maintenance charges towards the water supply to Robertsonpet and Cooly Colonies ought to be paid by the Sanitary Board, I have the honour to submit herewith a copy of the Board's resolution passed at their meeting held on the 13th November 1908, from which it is observed that the Board are willing to pay for the actual cost of pumping and maintenance charges towards the Robertsonpet water supply.

From the copy of letter no: 431 dated the 24 August 1908 from the Executive Engineer, Water Supply and Stores Division, to the Chief Engineer of Mysore, forwarded to me with your office Memo no: $\frac{2719}{L.B.87-08-3}$ dated the 14th September 1908, it

is seen that the cost per day for water Supply to Robertsonpet will come to Rs 13¾ or about Rs 5000f per year taking the population of Robertsonpet to be about 5000. at the rate of 3½ annas per 1000 gallons.

As regards the annual maintenance charges which amount to Rs 111 of the Board in their meeting held on the 15th January 1909, have resolved to bear this cost (vide Copy of the re-solution enclosed herein).

The idea of supplying water to the Cooly Colonies will be given up for the present owing to want of funds and insufficient Supply of water in the Betamangla Tank.

Under these circumstances, it is request-ed that water may be supplied to Robertsonpet, as soon as practicable.

Proceeding of an ordinary meeting of the Sanitary Board Kolar Gold Fields, held on Friday the 30th April 1909.

Resolution 11. Read Letter no: 2883 dated the 15th instant, from the Chief Engineer of Mysore, to the Secretary General and Revenue Department through the President, Sanitary Board, forwarding for Government sanction a modified project for the water supply to the Cooly Colonies amounting to Rs 29,242/-.

Resolved that the Sanitary Board regret that they cannot afford to pay so much away for a supply of water to the Cooly Colonies for the present.

SIR,

With reference to Government Proceedings No.11609 73/L.B. 104-06- dated the 30th April 1908, sanctioning the projects for water supply to Robertsonpet, and to the Cooly Colonies on the Kolar Gold fields, estimated to cost Rs.14,370 and about Rs. 14,500 respectively, I have the honor to forward herewith for the sanction of Government, a modified project for the water supply to the Cooly Colonies amounting to Rs. 29,242 received from the Executive Engineer, Water Supply and Stores Division.

2. This project provides for a supply of 7½ gallons per head as recommended by the Central Sanitary Board, instead of 5 gallons as estimated for previously.

3. According to the orders passed in Government Pro--ceedings No. 8979-81/L.B.87-08-10 dated the 16th March 1909, the Kolar Gold Fields Sanitary Board have been relieved from payment of the cost of the water itself, but they should pay the pumping charges as well as the annual maintenance charges which latter amount to Rs. 1,000 as estimated.

4. The allotment sanctioned on this account in Govern--ment Proceedings No.11069-73/L.B.104-06 dated 30th April 190 having lapsed, a fresh allotment of Rs. 29,000 (~~wx~~ together with Rs. 5,220 on account of the usual establishment and tools and plant charges at 18 per cent) may be sanctioned in the
